REYA DUTTA

STUDENT

B.TECH IN COMPUTER SCIENCE AND ENGINEERING

PROFILE

Self-motivated and hardworking fresher seeking for an opportunity to work in a challenging environment to prove my skills and utilize my knowledge & intelligence in the growth of the organization. Passionate about web development along with JAVA development , C-language , Python along with Data Structure and basics of Powe BI . Successful at managing multiple priorities with a calm and positive attitute.

TRAINING AND EXPERIENCE

- **WEB DEVELOPMENT FROM NATIONAL INSTITUTE OF INDUSTRIAL TRAINING (NIIT)**

Build a full stack website development project on **TRAVEL MANAGEMENT SITE** to allow user to visualize and book tours for their perfect vacation. This application is develop to provide best travelling services to the customers and travel agents. I have developed tours and travel management system to provide a search platform where a tourist can find their tour places according to their choices.
Front-end : HTML || CSS || Javascript
Back-end: PHP || MySql

- **Portfolio Using HTML, CSS, Javascript**

My portfolio project is a personal website created with HTML, CSS, and JavaScript. It serves as a digital representation of myself, featuring sections that highlight my background, skills, projects, and interests. Through interactive elements and a clean design, I aim to provide visitors with a comprehensive view of who I am professionally and personally.

- **Internshala Training on Core Java**

Completed Internshala training on Core Java, gaining proficiency in fundamental Java concepts, object-oriented programming, and practical coding skills.

INTERNSHIP

worked as an intern on a project of IOT in IIT Guwahati (Smart Moisture Sensor System) :- Engineered a smart moisture sensor system utilizing ESP8266 and Arduino IDE, integrated with ThingSpeak for real-time data visualization. Automated plant irrigation by activating a motor when soil moisture levels were low and deactivating it when levels reached optimal conditions.
